### LIFELIKE QUALITY

Capture the world from a new perspective in glorious HD detail. To help bring your memories to life, the Phantom 3 Advanced features a built-in camera that shoots 2.7K video at up to 30 frames per second and captures stunning 12-megapixel still photos. The camera is paired with DJI's advance 3-axis gimbal stabilization technology to ensure you record ultra-smooth, stable footage, no matter how you fly.

To help you shoot effortlessly stunning images in almost all lighting conditions, the Phantom 3 Professional's camera is equipped with a professional *f*/2.8 lens with a 94° field of view. This cutting edge lens captures the whole picture, bringing colours to life just as you remember it without any unwanted lens distortion.

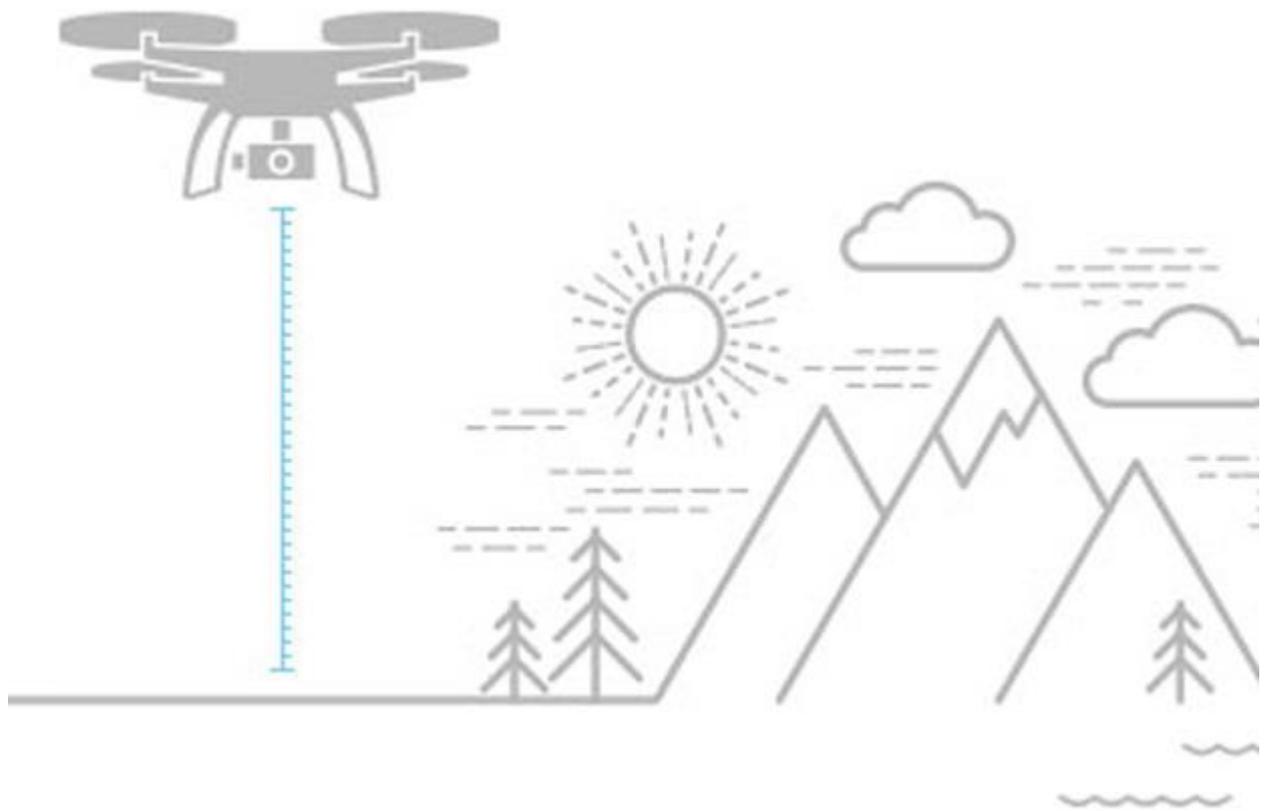

### **LIVE HD FOOTAGE**

Enjoy a view from above and see exactly what the Phantom 3's camera sees in stunning HD quality. Stream live HD video feed directly on your Smartphone or Tablet device and watch the world from a new perspective in absolute clarity. You can even adjust camera settings to line up the perfect shot.

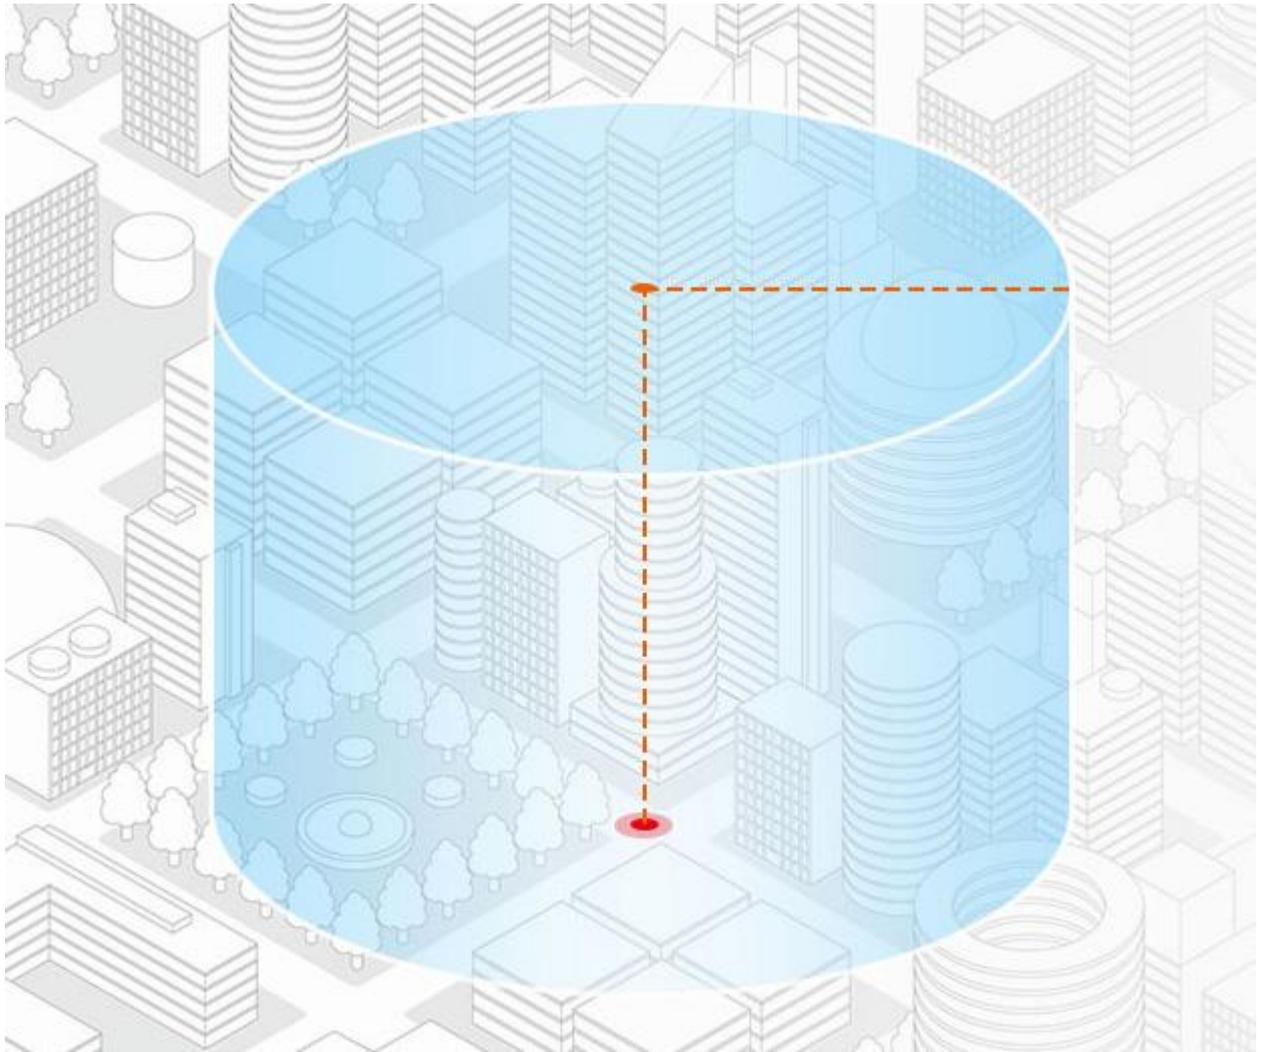

### **ULTIMATE CONTROL**

This ergonomically designed controller features everything you need to command your drone including a built-in rechargeable battery, spring-loaded control sticks and high powered antenna that works up to a distance of 1km range.

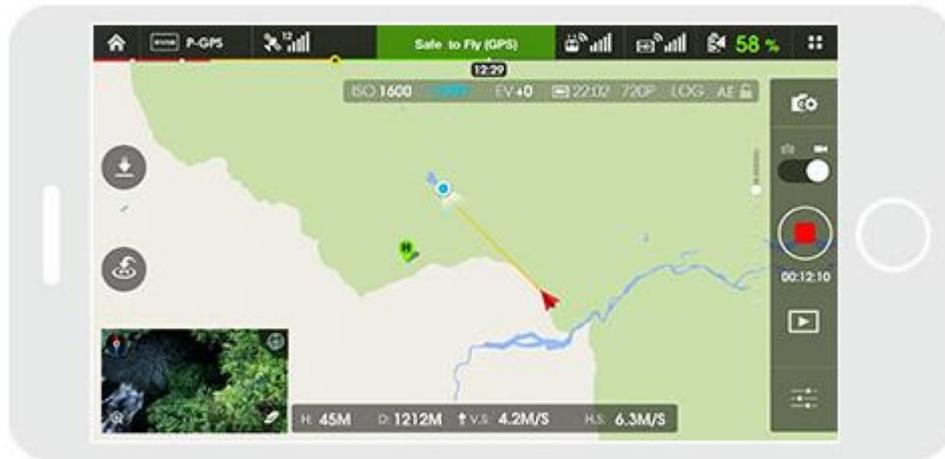

### **AUTO-HOVER**

Thanks to Phantom 3's intelligent flight system you don't have to worry about always staying in control. For example, if you release the controls, the Phantom 3 will hover perfectly in place, holding both position and altitude until you direct it where to go next.

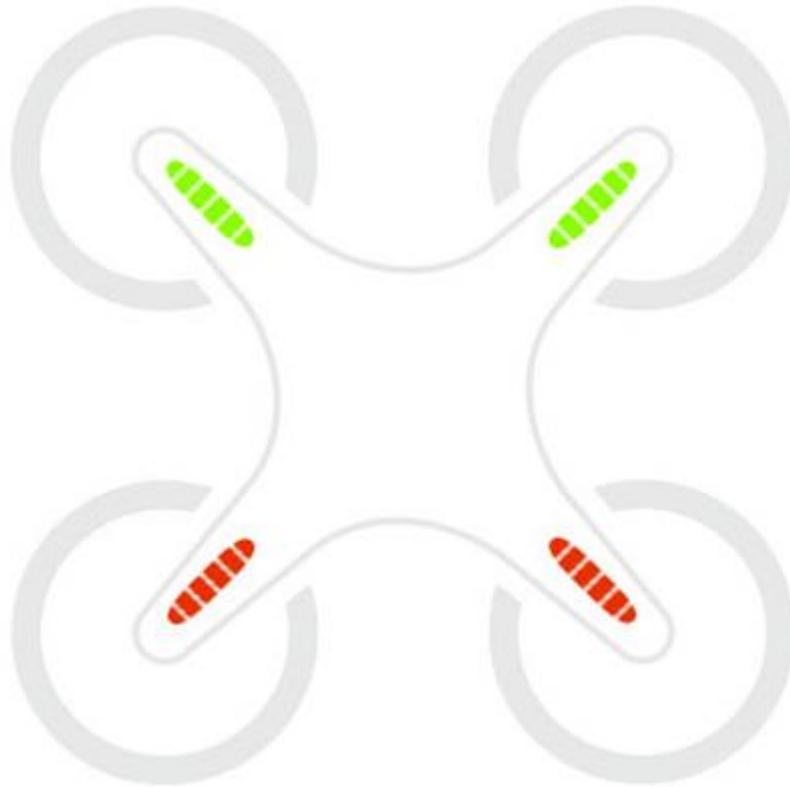

### **SAFE FLIGHT LIMITS**

To prevent the drone from flying into any unwanted areas or objects, you can set the Phantom 3 to only fly within a given distance and height from you. It's perfect for first-time pilots or those looking to put the drone through its paces within a safe, limited area.

## LIVE GPS

To ensure you never lose track of your flight, the Phantom 3 sends its position to a live GPS map on your mobile device. Use this map to see the drone's exact location, know which direction it is facing, and record take-off points to guide it back to you in an instant.

### **STATUS INDICATORS**

To help you fly safely the Phantom 3 features large LED lights on each arm that light up as you fly, showing you the status and direction it's facing.

## **INTELLIGENT BATTERY**

The Phantom 3 features a patented DJI Intelligent Flight Battery that continuously calculates its distance from you and the amount of power needed to return in real time. The bright LED indicators show you the current power status of the battery.

## **UNMATCHED PROPULSION**

Soar to the sky, stop in mid-air, or speed up to your destination in an instant thanks to the Phantom's powerful, responsive motors. The contact-less motors are designed to increase efficiency and reliability so you have longer flights.
